The Beginning

The story of MMR is of an individual from rural poor background who could barely afford to complete his Diploma due to his socio-economic background. The journey of MMR from a small time individual sub-contractor in 2003 to Turnkey solution Provider, in the field of Telecom Infra Services is a phenomenal growth story.

Mr. M. Madhusudhana Rao, the founder member and head of the organisation is the pioneer, architect and the central thespian of all this achievement with the integral participation of the managing team.

About Us

MMR Group is one of the fastest growing infrastructure companies in India operating across business segments comprising of Telecom, Power, Roads, Irrigation, Buildings, Bridges & Flyovers and Information Technology.

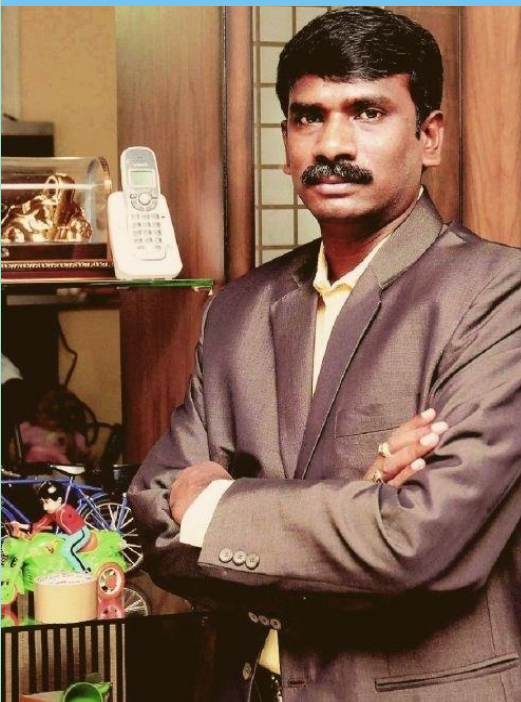

The Company presently manages projects across all sectors in many states in India and is exploring opportunities in other parts of the World.

MISSION

Our Mission is to establish a long term relationship with our valuable clients and customers, in order to meet their objectives and competitiveness, and reliability and safety. Our multi-skilled team develops innovative solutions that combine technical and economic performance.
